

Our PENNT site spans four locations, placing special attention on supporting children to remain in school, who would otherwise have to drop out to find work to support their families. Our site provides an after school and daily meal program, and runs four soup kitchens. Site staff also offer workshops on health, hygiene, and family and community issues.

Education

Goals

1. To continue providing our school support service for children and youth.
2. To encourage sponsored young people to complete their university studies.

Achievements

1. Children and youth received school support from qualified teachers.
2. Parents and young people received workshops on the importance of education.
3. Many of our high school students continue their studies at technical colleges and universities.

Health & hygiene

Goals

1. To train beneficiaries and their families on health care assistance and/or campaigns to prevent chronic and/or terminal illnesses.
2. For children and their families to have basic materials for personal hygiene and cleanliness.
3. To manage critical cases of attended and solved diseases.

Achievements

1. Access to family health services (general medicine, dentistry, etc.) has been improved.
2. The families of sponsored children have improved hygiene in their homes.
3. Families are aware of the importance of health and disease prevention.

Nutrition

Goals

1. To receive support from Chalice's nutrition program.
2. To continue to provide nutritious food to children and youth in the community.

Achievements

1. Children and youth received nutritious meals through our school support program.
2. Families of sponsored beneficiaries aware of the importance of prioritizing the purchase of nutritious food.
3. We compiled a list of suppliers that offer good quality food products at a good price.

Community

Goals

1. To have our children and youth to participate in community events.
2. To offer services and social work according to the needs of the community.

Achievements

1. The community participates in the patron saint festivities of each parish.
2. Groups from the community benefited from the delivery of Christmas baskets and cleaning kits.
3. Our site was recognized at the level of OTB's, Educational Units, Defenders, Health Center, NGOs, etc.

Family

Goals

1. Empower mothers to make appropriate decisions for the well-being of their family members.
2. Create spaces where families can participate in the development of the community.

Achievements

1. The participation of families with the activities of our site was increased.
2. Empathy and solidarity among families in adverse situations was improved.
3. The families participating in the program are referents of improvement in their quality of life before the community for the work carried out.

Family funding

Goals

1. Fully implement the family funding model.
2. Form new family circles, integrating newly sponsored families.

Achievements

1. New families were integrated into family circles.
2. Families received benefits such as vouchers and gift cards to purchase required materials for their children.
3. 99% of our sponsored families opened their own personal savings accounts.
